

WOLTERS

PRODUCT RANGE 2019/2020

For explorers. For sleuths. For you.

Dear cat and dog-lovers,

when we talk about family, there's no doubt that it includes dogs and cats too. Everyday well-being and happiness for all is what counts.

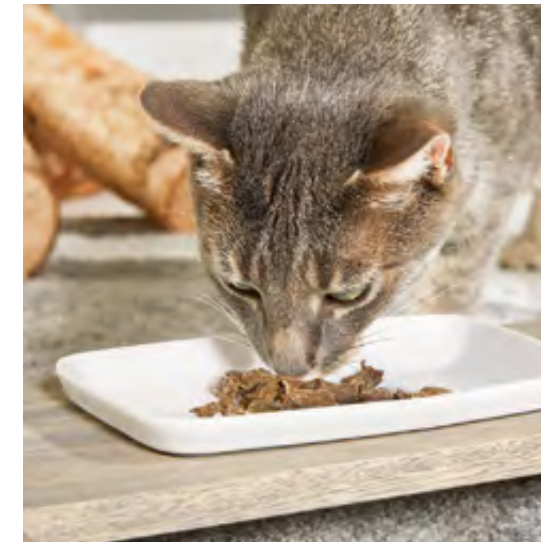

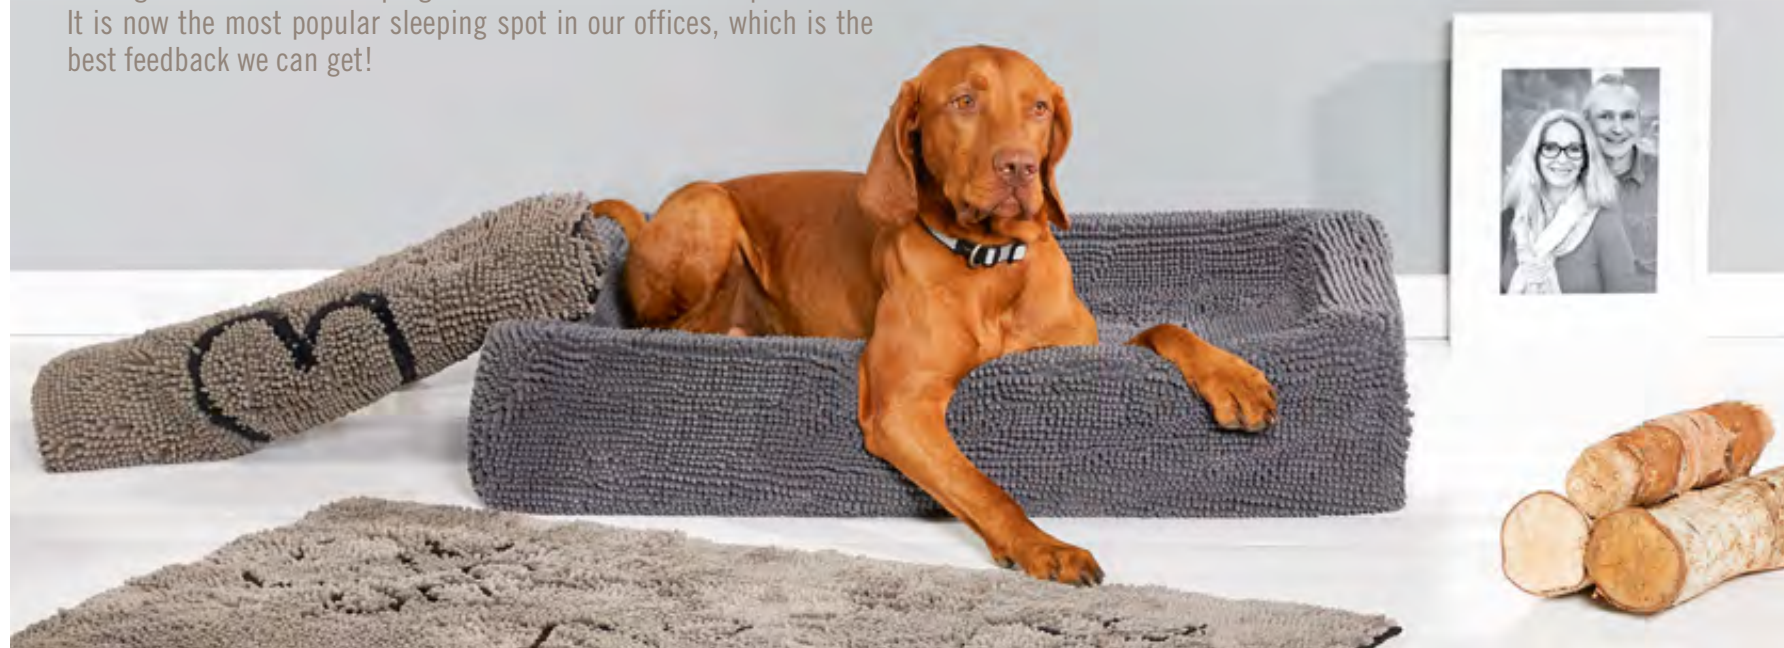

And that is precisely the motivation for us to keep developing our products, with the aim of making your four-legged friends even more comfortable and of course of finding practical everyday solutions for you too.

Our Dirty Dog products, those popular dustbusters, are one good example. For some time now we have observed that dogs – and cats too – are completely crazy about this material. They nuzzle, snuggle and sleep on the mats. And suddenly our Dirty Dog products had another important plus. That gave us the idea of adding a comfortable sleeping area to the new Cleankeeper series. It is now the most popular sleeping spot in our offices, which is the best feedback we can get!

We believe that transparent production methods and ecological materials for our products are vital. So for all our activities we have adopted the motto, "Getting even better every day!"

We hope you enjoy browsing through these pages for your dog, your cat and yourself!

Kind regards,
Frank & Martina Wolters

Professional Comfort
**NYLON & NEOPRENE
COMFORTABLE TO WEAR**

Basic - for beginners!

BASIC COLLAR

- Multiple adjustment options, so ideal as a first collar for puppies
- 100% Nylon
- Very comfortable to wear
- Strong fastening clip
- Strain protection from size L upwards
- Slide to adjust
- Washable

STRAIN PROTECTION:

Strain protection is sewn in, so any pulling does not put pressure on the fastening clip and prevents the collar opening accidentally.

A perfect fit:

HOW DO I FIND THE RIGHT SIZE OF HARNESS?

The **dog harness** must fit perfectly in order for it do its job properly. For most of our harnesses, the size depends on the **dog's chest measurement**. To calculate the right size you should measure your dog at the broadest point, just **behind the front legs**.

Our harnesses can be **adjusted in several ways**. So in our **size tables** we always provide the largest and smallest adjustment settings. If the measurement you have taken is between two sizes, we recommend that you choose the **larger harness**.

BASIC HARNESS

- Multiple adjustment options, so ideal as a first collar for puppies
- 100% Nylon
- Very comfortable to wear
- Strong fastening clips
- Slide to adjust
- Washable

BASIC ONE TOUCH HARNESS

- Fastening clip on the back for particularly easy attachment, closes with just one click

First outfit for your puppy:

PUPPY HARNESS AND COLLAR

Because puppies grow quickly, you should choose a **harness or collar that can be adjusted as much as possible**, so it can expand too. Here we recommend the harnesses and collars in our **Basic** and **Professional** lines. The harnesses **can be adjusted** at the neck and chest, as well as on the central strap. Be sure that the harness doesn't cut in anywhere. You should **check regularly** that it hasn't become too tight.

THE PUPPY'S LEAD

To start with you shouldn't buy too long a lead (max. 2 metres), so your puppy has **enough room to move**, but you remain in **control at all times**. You should also make sure that the lead has **several adjustment options**. On a busy street you should keep it shorter, while in the park you can let your dog run on the full length.

CHECKLIST FOR PUPPIES

- Puppy harness
- Puppy collar
- Lead
- Bed/sleeping area
- Food and water bowl
- Toys
- Transport box for the car
- Food and treats
- Poop scoops

BASIC HARNESS AND COLLAR

The extendable harness and Basic collars are perfect for the new member of your family. You can find out more on **page 8**.

NOBLE STRIPES

A comfortable retreat: your puppy will feel particularly snug here. You can find the lounge here: **page 95**.

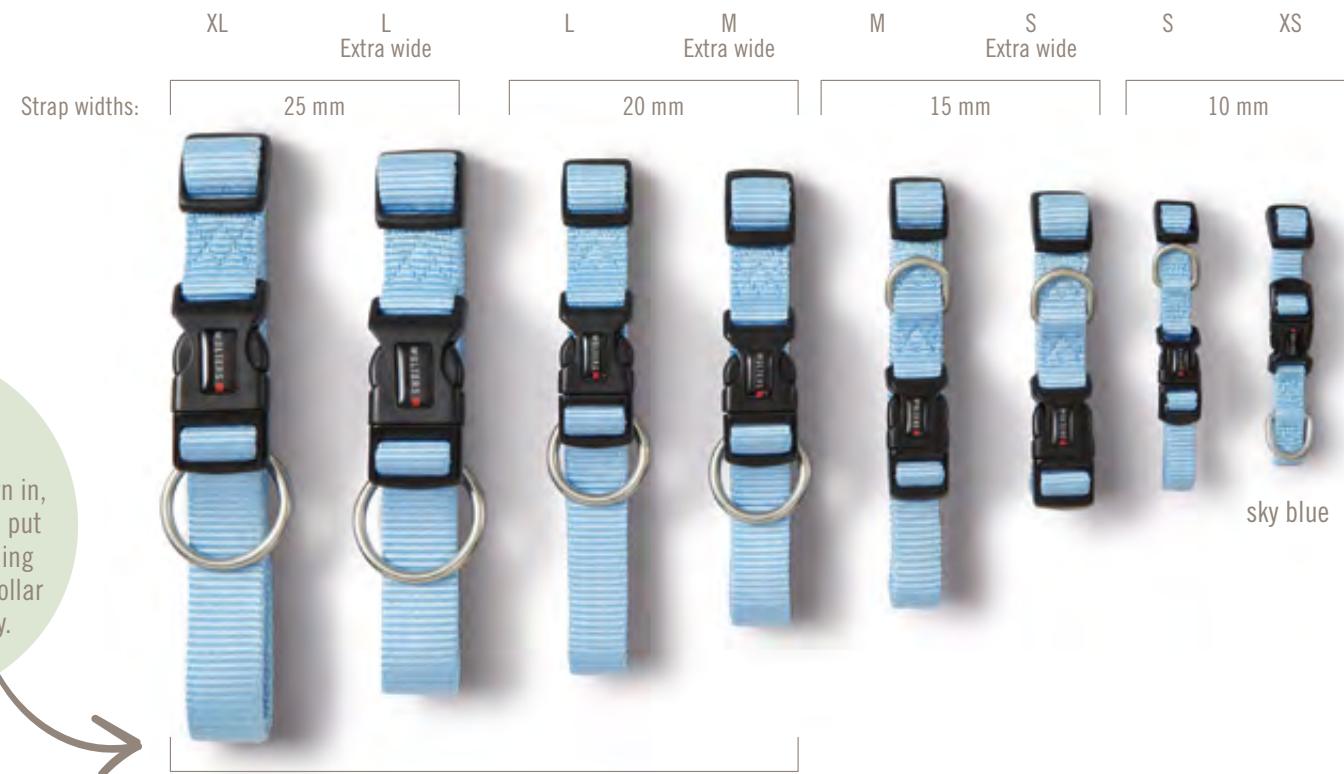

WOLTERS DINER STONE

The bowls are made of a food-safe ceramic material and the glaze contains no heavy metals. You can find out more on **page 160**.

CUDDLY DOG

This little friend is suitable for playing or nuzzling. Information about our cuddly toy dog is available on **page 145**.

Professional - extra robust!

Safety first: 🔍

OUR NO ESCAPE HARNESES

Scared or panicked dogs can be a danger to themselves and even to people. A fear response may mean that the dog can shake the harness off over its head by making a sudden backwards movement. So for additional safety, an escape-proof harness is necessary.

The broad stomach strap on this model means the dog cannot get out of the harness even if it panics or tries to shake it off. You can find our No Escape harnesses on [page 17](#) and [page 37](#).

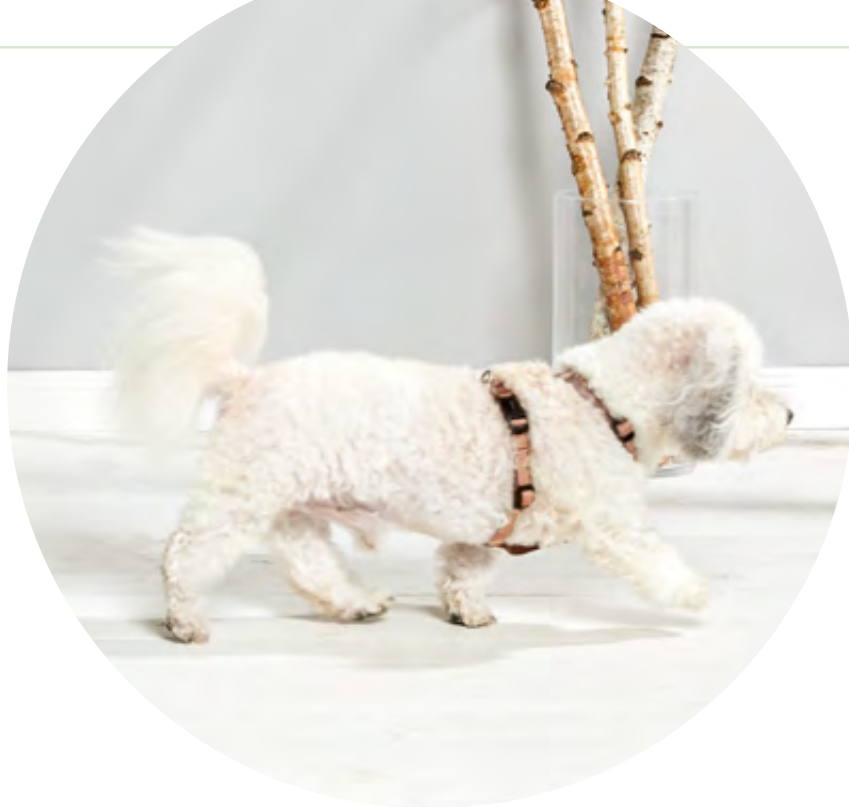

PROFESSIONAL HARNESS

Comfortable to wear:

The Professional Comfort harness is **particularly gentle** on the dog's coat. Soft padding in the chest, shoulder and stomach area make it **particularly comfortable to wear**. The broad breastplate protects the **dog's sensitive chest area** from **excess pressure** when the lead is **under tension**. The harness **provides secure support** for the shoulders and stomach and enables **maximum mobility**.

RING/LEAD ATTACHMENT:

Robust lead ring, strong stitching, resists straining.

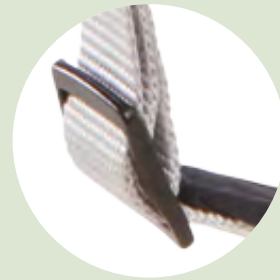

CLICK CLIPS:

Highly resistant but still easy to open.

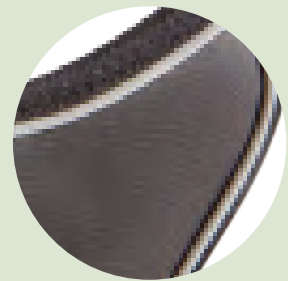

ADJUSTMENT LOOPS:

Adjustable in stomach and chest area, for optimal fitting to your dog's build.

NEOPRENE PADDING:

Very comfortable for the dog to wear.

BREASTPLATE:

Very good pressure distribution when the dog strains, with reflectors for good visibility in the dusk and dark.

Leads - a guide:

CITY LEAD – 1 METRE:

This lead is particularly good for walking **among large crowds of people**. It also makes sense for puppies and dogs without much experience of walking outside. Since your dog is very close to you, it is **easier** for you to stay **in control**.

STANDARD LEAD – 2 METRES:

This is the classic type of lead and measures 2 metres in length. It is used for taking the dog on **daily walks**.

EXTRA-LONG LEAD – 3 METRES:

Our extra-long lead provides even more room to move. Your dog can enjoy the **extra freedom of movement**, while you remain in **full control**. It is particularly suitable for dogs that like to range more widely when they are out for a walk.

SHORT LEAD:

Since the short lead is just a few centimetres long it means your dog has to **walk to heel**. It is suitable for a short stroll in town or when there are more people about.

DOUBLE LEAD:

The double lead or splitter is made especially for relaxed walks with **two dogs**. Your dogs have maximum room to walk and can move individually, without getting in each other's way.

CARABINER:

Very strong and stable, adapts to the width and size of the lead.

NEOPRENE PADDING:

Very comfortable to hold, protects your skin from abrasion if the dog strains on the lead.

REAR RING:

This creates the longest lead and is perfect for making a small loop for your hand or attaching to a ring outside a shop.

MIDDLE RING:

The larger ring has room to pull the carabiner through, so the lead can be doubled up to enable a medium range of movement.

FRONT RING:

For a smaller range of movement in crowds, the lead is shorter and the dog stays close to you.

PROFESSIONAL COMFORT LEAD

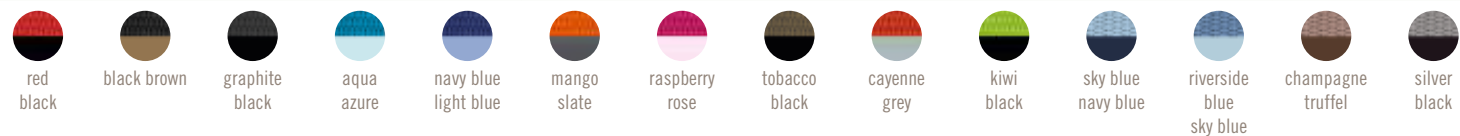

- Three-way adjustment
- Exterior 100% nylon
- Neoprene lining with extra padding
- Very comfortable to wear
- Washable

Soft & Safe - safety first!

SOFT & SAFE COLLAR

- Reflective stitching ensures good visibility in the dusk and dark
- Exterior 100% nylon
- Comfortable fit thanks to soft neoprene padding
- Strong fastening clip
- Slide to adjust
- Washable

STRAIN PROTECTION:

Strain protection is sewn in, so any pulling does not put pressure on the fastening clip and prevents the collar opening accidentally.

100% organic leather from Germany:

coconut

FINEST ORGANIC LEATHER FOR CONNOISSEURS

For our leather collars and leads we use particularly **soft nappa cow hide** from **ecologically controlled tanneries** in the Allgäu region in Germany. Tanning is carried out using only **plant-based, chrome-free tannins**, such as tara pods, valonea acorns or rhubarb root. No synthetic dyes or heavy metals are used to dye the leather.

Since we only use open-pore, natural leather and do without artificial sealants, our leather goods are **particularly kind to the skin and anti-allergenic**. The leather can breathe and keeps its original character.

BEST QUALITY

Individuality is a sign of **quality**, so the leather also shows marks left over the cow's whole life; it is neither embossed nor sealed with synthetic materials. Slight differences in the depth of colour are a quality feature of this full-grain leather and evidence of the natural materials and processing. Weather, light and contact cause **slight changes** in the surface over time. We recommend applying a **natural leather care product** before the articles are used for the first time; this closes the pores in the leather and so protects it from external influences.

chestnut

Functional & trendy clothing

PRACTICAL OUTDOOR CLOTHING
FOR WIND & WEATHER
FOR OUTDOOR FANS & TRENDSETTERS

The measure of a dog!

HOW DO I MEASURE MY DOG FOR CLOTHING?

When clothing fits properly, your dog feels comfortable and has plenty of **room to move**. Choosing the **right size** is vital to obtain a **perfect fit**. In order to choose the right size, you need the **back length** as well as the **neck** and **chest measurements** for your dog.

BACK LENGTH

Measure the dog's back when it is standing, from the shoulder blades (where the collar sits) to the base of the tail. Clothing must be long enough to protect the dog's back against cold or wet, but must not cover the tail.

CHEST MEASUREMENT

Measure the dog's chest directly behind the front legs. To do so, pass a measuring tape once around the chest.

NECK MEASUREMENT

Pass the measuring tape loosely around the dog's neck. The collar should never fit closely to the neck but have a space about two fingers deep. One finger deep is enough for small breeds of 30 cm or less.

SIZES FOR DOG COATS

Dog coats	Back length Collar to base of tail	Neck measurement	Chest measurement min. Measured directly behind the front legs	Chest measurement max.

Dachshund 44	44 cm		38 cm	51 cm

TIP:
If your dog is in between sizes, always go for the larger size.

Extra-strong for outdoor fans

With the outdoor jacket Xtra Strong your dog can chase through the undergrowth without a care, since the jacket is made of a thick and **very hard-wearing** nylon fabric. The material is trimmed in a different colour and has **reflective side panels** to make your dog more visible in the dusk or dark.

A special quality bonus: the product is particularly **water** and **dirt-repellent** thanks to the unique ecorepel® waterproofing.

Inspired by nature:

ECOREPEL® WATERPROOFING:

It is very important for us that our functional clothing for dogs offers **lasting protection against water and dirt**, so that you can keep on enjoying our products for your dog for a long time. So we have enhanced almost all our functional clothing with our **ecorepel® waterproofing**.

This special waterproofing imitates the natural **waterproof protection** of a duck's plumage and ensures that our dog coats and jackets stay clean and dry.

ecorepel® is based on long paraffin chains that are wrapped spirally around the individual fibres in a very thin film. This reduces the surface tension, so that water drops and muddy water just roll off. It does not affect the breathability of the fabric, which remains soft to the touch too. This waterproofing is **extremely resistant to abrasion and scouring** and withstands frequent washes in a washing machine. So weather you wouldn't send a dog out in becomes a pleasure, at least for your four-legged friend.

Ready to go!

Why does my dog need a jacket?

PROTECTION AGAINST COLD

Just like people, some dogs are **more sensitive to the cold than others**. It is independent of the breed or size of the dog. The important thing is the kind of **coat your dog has**.

If your dog has short hair and therefore little or no warming undercoat, it will feel the **cold faster as it gets older**. This applies to dachshunds, boxers or pugs, for instance. Long-haired dogs can also be sensitive to cold when they have just been trimmed, for example.

FROM BIG TO SMALL

A warm jacket can be a welcome relief on daily walks, especially for **older dogs**, if they are **suffering from backache** or a **weakened immune system**. Their body is protected, because damp cannot settle on their fur and penetrate to the skin.

For **puppies too**, whose **immune system is not yet fully developed**, it is important to be **protected against cold and wet** by a well-fitting jacket, especially in the winter.

Dog-owners who practice sports with their four-legged friend should think about getting a **warm jacket** for the **rest periods**, so that the **dog's muscles** do not get cold.

THIS IS THE RIGHT WAY TO FIND OUT:

Watch your dog carefully on a cool day, with wind, snow or rain. The important thing here is how your dog moves. If it is **tense and arches its back** like a cat, or holds its tail under its stomach, it is probably cold. **Visible shivering** is very typical and an important sign.

And certainly if your dog doesn't want to go outside at all, you can be sure that it would like to **have a warm jacket**.

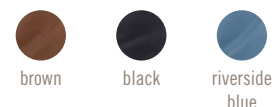

Look of the day!

Wolters Green Line

FROM 100% ORGANIC COTTON
SOFT TO LIE ON

Everyone can dream!

DESIGN AND ECOLOGY COMBINED

All beds are made of **100% organic cotton**, with **elegant piping** for an attractive design. The robust stuffing is made of **recycled material** and gives the pillows their stable, comfortable shape. High-quality covers can be easily removed for washing. Perfect!

WOLTERS GREEN LINE LOUNGE & MATTRESS

- Timeless design, fits with all home furnishing styles
- 100% Organic cotton
- Padding of recycled polyester
- Dog can relax and lean back against the raised edges of the lounge
- Very stable thanks to extra-thick padding, also suitable for large dogs
- Very hygienic, as cover can be removed and washed (only for the inside mattress in the Lounge)

How your dog should sleep:

WHAT IS THE RIGHT SIZE BED FOR MY DOG?

The right place to sleep is an indispensable part of your dog's equipment. A comfortable retreat is just as important for your loyal companion as your own bed is to you. You should take your dog's measurements before you buy a bed. Then you can be sure there is enough space to sleep and dream.

THIS IS HOW TO DO IT:

Just measure the length of your dog from the tip of its nose to the end of its back and add another 20 to 30 cm to the measurement.

IMPORTANT:

When choosing the right size sleeping area, too big is better than too small.

SNUGGLE BLANKET SWEET DREAMS

WOLTERS CLEANKEEPER COMFORT BED
More on page 104

*Dirt-traps
to dream on*

Its unique anti-dirt technology makes the WOLTERS Cleankeeper series a real dustbuster: hundreds of soft microfibre strands absorb mud or water in a trice.

WOLTERS CLEANKEEPER OVAL MAT
More on page 105

Wolters Cleankeeper

SOFT MICROFIBRES
WATER-ABSORBENT & COMFORTABLE

Dirt-free comfort zone

ALL-ROUNDER: WOLTERS CLEANKEEPER

It's incredible what these **soft microfibre strands** can do! They have proved so popular with humans and animals that we have extended our Dirty Dog product range with **cosy sleeping areas** from the new **Cleankeeper** series. And now the **anti-dirt technology** lets them have the softest of sweet dreams too.

WOLTERS CLEANKEEPER COMFORT BED

- Soft microfibres
- Water and dirt-absorbent
- Ideal for the car, the boot or the entrance hall
- Very hygienic, as the cover can be removed for separate washing on a gentle wash, not for tumble-dryers

WOLTERS CLEANKEEPER OVAL MAT

- Soft microfibres
- Water and dirt-absorbent
- Ideal for the car, the boot or the entrance hall
- Fits inside all the VIP Lounges
- Very hygienic, as the cover can be removed for separate washing on a gentle wash, not for tumble-dryers

PERFECT FIT:

The oval mat makes all our VIP Lounges even more comfortable. It's the ideal insert for the cold season.

Holiday checklist for your four- legged friend:

PAPERS, GROOMING & HEALTHCARE

- EU pet passport for trips abroad
- Copy of third-party liability insurance for dogs
- First-aid kit for the dog
- Dirty Dog Shammy to prevent dirty paw marks in the holiday home

EATING & DRINKING

- Dog food for the whole travel period
- WOLTERS Diner To Go food and water bowl
- Treats as a snack for rest stops and rewards

WALKING & PLAYING

- To Go Travel Pad
- Aluminium address capsule for the dog collar
- Lead for safe walking in a strange holiday environment, e.g. Professional Lead
- Replacement lead and harness
- Wolters Aqua-Fun toys for exciting water games
- Enough poo bags for the trip, e.g. Picobello bag dispenser and extra bags
- Muzzle for countries that require one
- WOLTERS dog clothing for travel to cold climates

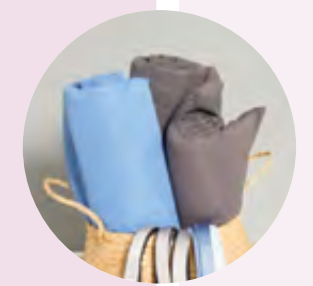

PROFESSIONAL LEAD
The lead is light to carry, can be adjusted three ways and has a double strap. You can find out more on [page 18](#).

WOLTERS DINER TO GO
Food and water bowl are combined here in one handy bag. You can find more information here: [page 130](#).

PICOBELLO BAG DISPENSER
This clever dispenser makes every walk even more relaxed. More info about this all-rounder is on [page 54](#).

TO GO TRAVEL PAD
The pad is useful for travel by car and is easy to stow. Information about our To Go Travel Pad is available on [page 122](#).

100% natural:

HEALTHY, NATURAL FUN

Our natural rubber products are made of **100% natural rubber**, dyed with natural colours and **pose absolutely no health risks** for your four-legged friend. An additional bonus is that the material is **very hard-wearing** and **bite-proof**.

Natural rubber is made from the sap of the rubber tree. Cutting the bark of the tree releases the latex sap, which is collected in cups. This substance, which consists mainly of water, rubber and resins, is then **dyed naturally** and moulded to the desired shape.

Oh, what an egg...

OSTRICH EGG WITH OR WITHOUT ROPE

- Perfect for throwing and retrieving games
- Irregular bounces train the dog's coordination skills and make games more fun
- 100% natural rubber
- No health risk, thanks to natural components and colouring

Play without squeaking

WHY DO WE MAKE OUR TOYS WITHOUT SQUEAKING NOISES?

When a dog hunts what could be its prey and the prey keeps making noises, the dog thinks the animal is not dead yet and so does not stop worrying it.

A squeaking toy is also **not useful** for teaching dogs how to interact with one another. If your dog accidentally bites another when they are playing, for example, the other dog will squeal or whine and turn away. This is how it signals to its fellow creature that it is **hurt** or **scared**. For the other dog this is a **signal to leave off and stop playing**.

So we deliberately make all our toys **without squeaking noises**, so as not to awaken the dog's hunting instinct unnecessarily or to strengthen it over time.

On safari!

Eating & Drinking

TASTEFUL BOWLS
EVERY DAY IS A FEAST DAY
FOR REAL GOURMETS

A shining example

The elegant, polished bowl WOLTERS Diner Steel is made of **100% stainless steel** and is a real eye-catcher in every kitchen. Its **non-slip base** and **substantial weight** allow your four-legged friend to enjoy their food in peace, without pushing the bowl across the floor. It's just to our taste!

Finding the right bowl:

WHAT SORT OF BOWL DOES MY PET NEED?

A proper bowl is one of the **absolute basics** that all dog and cat owners must have. Ideally every animal in the house should have two bowls that are appropriate for its size.

If your **dog** is very big or getting older, you should think about providing food in a **raised bowl** to make it easier for them to eat. The dog then doesn't have to bend right down to the floor, which puts less of a strain on its back and shoulders. For **cat bowls** you should choose an oval shape. This means your **cat's sensitive whiskers** do not get bent while it is eating.

Generally speaking, the bowl should either be heavy enough not to slip or fall over when the animal is eating, or it should have a **non-slip base**. Alternatively you can get a **non-slip bowl mat** to stand it on.

Multi-coloured bistro

WOLTERS DINER COLOUR

- Ceramic
- Glaze does not contain heavy metals
- Foodsafe
- Ideal for water and wet and dry food
- Dishwasher-proof

TIP:

Our **WOLTERS Diner** dog bowls are also very good as **water bowls for cats**, because puss likes to have different places to drink around the house.

Natural pleasures:

WE SUPPORT THE STEWARDSHIP OF NATURAL RESOURCES

The frame for the bowls **Gohan**, **Meshidai True**, **Meshidai True Siam** and **Sir Henry** is made of wood from **sustainable plantations** in Thailand. As the tree is a fast-growing species that can be harvested every few years, using this timber has no adverse impact on the environment.

The wood is stained in different colours using an **organic oil**. It may get darker over time.

DIRTY DOG PRODUCTS & WOLTERS CLEANKEEPER

- Washable on gentle programme at 30 °C
- Wash separately from other clothes
- Use delicate detergent, no fabric softener
- Air dry, not in tumble-dryer

Our sponsoring

For us, **the stewardship** of our environment and **social responsibility** for animals are an integral part of our company philosophy.

So we are involved in many local, national and international animal welfare projects. We would like to give back something of our success to animals and people.

You can find more information on our website.

CLIMATE AND ENVIRONMENTAL PROTECTION

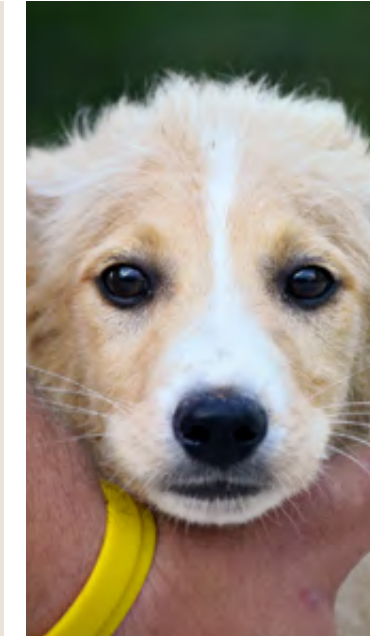

Planet Earth is home to all of us and we should take good care of it. If everyone makes a small contribution, the generations that come after us will be grateful.

So the employees' office equipment at WOLTERS is mostly made of **ecological materials** and we buy electricity from renewable sources from **Greenpeace**. In terms of mobility we are increasingly using **electric and hybrid vehicles**. The product catalogue is **printed** in a **climate-neutral way**. The paper used comes exclusively from sustainably managed forestry.

ANIMAL HOPE AND WELLNESS e.V. & VIER PFOTEN

We believe very strongly in getting our **Asian producers** involved in animal conservation and environmentalism in their own countries. So the non-profit association "Animal Hope and Wellness e.V.", which **rescues dogs from being farmed as food in Asia**, for example, and the **Bear Forest** in Ninh Binh managed by the organisation "Vier Pfoten" (Four Paws) are supported by our Asian partners in these countries.

A HEART FOR STRAYS

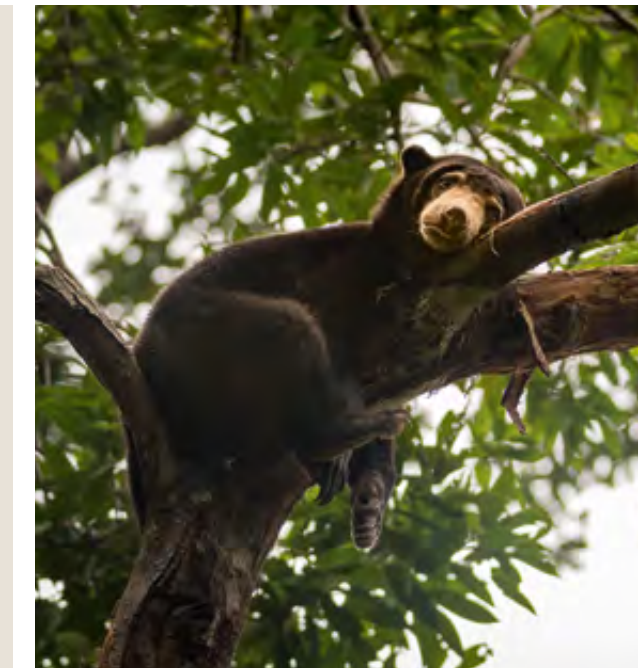

The association "Ein Herz für Streuner", or "a heart for strays", takes care of **stray dogs and cats** in Bistrita and Baia Mare in Romania with great dedication.

The animals are vaccinated, neutered and given other operations as necessary to protect and treat them. Some of the dogs and cats are **sent for adoption to Germany, Austria or Switzerland**.

HELP FOR JIM KNOPF

Countless numbers of **dogs and cats** live on the **streets** of Boa Vista in the Cape Verde islands. In order to stop their uncontrolled reproduction, we started a **castration programme** for dogs and cats with the help of a non-profit veterinary association, "Tierärztepool", and many donations. This has enabled us to improve the living conditions of some animals there considerably.

INTERNATIONAL HELP FOR ALL ANIMALS

Our love for animals not only extends to four-legged friends at home, like dogs and cats, but also to all the animals on our planet. So to protect **African elephants** we have sponsored a **WWF project in Zambia** that aims to conserve these charismatic pachyderms from extinction.

Near to you!

OUR PARTNER STOCKISTS

We have chosen our retail partners, known as “WOLTERS Partner Stockists”, carefully to ensure you will find a full selection of our products for dogs and cats there. They will advise you well.

WHERE IS MY NEAREST STOCKIST?

In addition to the list in this catalogue, which is sorted by postcode, you can look for a partner stockist near you on our website www.wolters-cat-dog.de under “Retailers”.

PARKA
More on page 80

The catalogue is designed for retailers to use when placing orders and for distribution free of charge to consumers. All the prices in the catalogue are recommended retail prices and include VAT at the statutory rate. We reserve the right to pass on any increase in the VAT rate. Prices and products subject to change.

We accept no liability for printing errors, colour deviations or transmission errors. All our information for retailers, such as T&C, Purchasing Conditions, Order Form, etc. are included in the Retail Package, which is sent separately to our stockists.
